

## 3 Must-Ask Questions

### When Picking a Calling and Collaboration Solution

Today's successful businesses utilize secure, flexible and affordable communication tools. Whether you are a small business utilizing everyday calling features or a larger business needing innovative collaboration features – continue reading to know just what questions you should be asking.

#### 01 Is the solution easy-to-use and supports the way you communicate today?

- ✓ **Business Calling with Webex** has one simple app for everything and everyone. Call, meet, message and more.
- ✓ Always-on collaboration keeps your business efficient, regardless of employee locations, time zones, devices and work styles.
- ✓ Easily integrate with other tools you may currently use, like Microsoft.
- ✓ Business Calling is provided by altafiber – with easy self-install and local support available 24x7.

#### 02 Does the solution have basic + innovative features that enable productivity?

- ✓ Take advantage of calling features like Auto Attendant, Disaster Recovery, Call Transfers, Voicemail to Email Transcriptions and more.
- ✓ Answer the phone or join a meeting from anywhere with features like background noise removal and speech enhancement.
- ✓ Have more control and insight into your business with **Business Calling's** self-management tool, Control Hub.

#### 03 Is it a cost-effective solution?

- ✓ **Business Calling with Webex** has enterprise-grade features that make your business feel larger, for a small business price.
- ✓ When you choose Webex, you get security that's built-in, not bolted on.
- ✓ Choose from a set of basic to advanced plans tailored for every business.
- ✓ Only pay for what you use by paying per user, per month – all through one provider: altafiber.

Only **Business Calling with Webex** delivers these top three must-haves for a seamless experience for your business.

Set the standard today for simple, intelligent, and inclusive collaboration that works the way you work.
