

The Power of Partnership

What is MWG?

Metalworking Group (MWG) specializes in sheet metal fabrication and machining, serving a wide range of industries, including military, logistics, medical, and gas. Born out of Richards Industrials in the 1960s, MWG has grown into a trusted manufacturing partner with over 140 employees across its Colerain and Fairfield locations.

“

We pride ourselves on customer service and high-quality parts. We work very well with large products because we can do a lot of different things under one roof...

What is Nexigen?

Founded in 2003, Nexigen has established itself as a leader in network management, cybersecurity, cloud solutions, and AI integration. Their mission is simple: deploy technology with trust — treating every investment as if it were their own.

Partner with Nexigen at www.nexigen.com

The Partnership

For MWG, Nexigen delivers:

- IT support for 50–60 issues each day.
- Technology assessments and reviews to ensure MWG's systems stay current and align with business goals.

altafiber provides MWG's reliable network infrastructure and IP phone systems, partnering with Nexigen to support this technology and streamline operations.

It's communication and automation. Everything we are doing and buying has to communicate with each other, and altafiber and Nexigen have a big part in that.

Doug Watts, CEO of MWG
